

## PSMA Energy Storage Committee Meeting Minutes 20 July 2022

### Attendees:

Joe Horzepa, John Horzepa, , Ed Herbert, Eric Schneider , Victor Boyadzhyan, Eric Swenson, Justin Farrelly, Michael Hayes, Juan Carlos Balda

### Proposed Agenda:

1. Welcome and Introductions to New Attendees
2. Technology Brief – Ronald de Graaf, Nawa Technologies
3. Show PSMA slide deck slides and ask for comments
4. Review APEC 2023 Industry Sessions Ideas
  - a. Cumulative List of Ideas Since March 2022
  - b. Rough Draft of a Proposal for APEC 2023
  - c. The committee requests a person or persons to champion the IS proposal, and to continue the process toward the conference, if possible, including becoming a moderator if the proposal is accepted. Many times this is done by a committee chairperson. The committee is asking if a person or person would also like to take over chairperson duties.
5. Review Educational Seminar Possibilities

### Discussion:

- Eric Schneider showed the PSMA slide deck slides briefly. No comments made by attendees.
- Eric Schneider asked if any of the attendees would be willing to champion the APEC IS task all the way through the conference. No attendees volunteered. Ed H. did state that he was willing to submit a proposal on behalf of the committee, but the work after needed to be by someone else.
- The discussion shifted to the direction of the committee since Eric Schneider stated that he would no longer support the committee after the July meeting minutes submission.
  - Mike H. wondered if the committee should take a pause until PSMA can find (a) chairperson(s) replacement(s). This would put the possibility of an APEC IS in jeopardy. Mike asked Joe H. if he believed that an Energy Storage IS at APEC 2023 is still an important event for PSMA, and Joe believed it to be important.
  - Joe and Mike believed that a session could be arranged through the coordination of other committees working together. The PSMA Executive Committee or BOD could help to create this coordination with the help of other committee chairs or board members.
  - Mike stated that this could be the type of committee cross-connection that PSMA is looking for.
- Justin F. has knowledge of companies with research grants that may be able to support an IS.
- Next meeting 17 August, 10 AM Central Time.
