

## PSMA Energy Storage Committee Meeting Minutes 13 Oct 2021

### Attendees:

Peter Victor, Ed Herbert, Eric Schneider, Ada Cheng, Joe Horzepa, Juan Carlos Balda, Shafi Khadem, Mike Hayes, Patrick LeFevre, Dinesh Kithany

### Discussion:

- Most of the meeting was spent discussing the speaker list formation for APEC 2022. The Committee has received preliminary approval for a 7 speaker session. The speaker list needs to be firmed up by early December. Ed H. opened a document and filled in topics/titles, speaker names, and potential/committed status.
  - Peter V. committed to a battery subject presentation.
  - Shafi K. stated he would be happy to present about “Control of Distributed Energy Storage Systems for Energy Communities” (via chat).
  - Patrick L said would present something about Hydrogen as “Plan Z.” He also said that he would approach Polarium about presenting.
  - Mike H. will approach James Rohan about a presentation involving “Battery 2030+”
  - Juan Carlos B. stated, “I can reach to a couple of speakers on the DOE Energy Storage program, and Oak Ridge National Lab work on fast chargers if needed” (via chat).
  - Ada C. will reach out to Dr. Becker to see if she has interest in presenting something new for APEC 2022.
  - Ed H. will dig into a company called “Redwood Materials”, which deals with recycling, and perhaps find a potential speaker.
  - Ada C. asked if we have anything on solid state batteries (via chat).
- Mike Hayes asked the committee about how far the remit of the committee should go, i.e. materials for energy storage.

Next Meeting 3 Nov, 11 am CDT
