

PSMA Energy Storage Committee Meeting Minutes 23 June 2021

- Welcome and introductions to new participants
- APEC 2021 impressions and feedback
- PSMA member benefits/activities
 - Power Technology Roadmapping
 - Educational Seminars
 - Workshop participation
 - Future APEC Industry Sessions
- New Topics
- Next Meeting

Attendees:

Ada Cheng, Doug Miller, Brian Sparks, Brendan Andrews, Fred Weber, Joe Horzepa, John Horzepa, Shafi Khadem, Brad Yourish, Pdraig Lyons, Ed Herbert, Eric Schneider

Discussion:

- Pdraig L introduced himself to the committee.
- We felt that the APEC Live Q&A for our IS went well, with 16 – 25 people participating at various times.
- Call out for topics and presentations for 2022 Industry Session
 - Potential Topics:
 - Hydrogen in Europe -technology roadmaps, stored hydrogen as renewable energy support.
 - Regulation services in Europe and how to monetize – ISO in Ireland may have a presenter.
 - Ed H. will submit the proposal for the APEC 2022 Energy Storage Industry Session. It will be broad and similar to the 2021 proposal. Due in mid-August.
- Ada C. asked if the hydrogen roadmapping activity could fit in with PSMA PTR activity.
 - Shafi K. stated that IEEE Power and Energy Society may have power electronics for renewable energy roadmap.
- Fred W. described his experience with IPC in a virtual environment. There was limited success with the audience because of awkward chat capabilities.
- Fred W. talked about workshop for automotive capacitors later this year.
- For keynote speakers at workshops, the most successful speakers describe a need that the industry has, and ways to solve the needs.
- Next meeting 21 Jul 11 am EDT.
