

## APEC 2013 Energy Harvesting Industry Session IS2.1

Steve Grady      Troy Davis    Mark Buccini,  
Roman Budek    Arnold Alderman    Henrik Zessin      Brian Shaffer

- IS2.1.1** Forging Ahead: Global Commercialization of Energy Harvesting Technology, *Steve Grady - Cymbet*
- IS2.1.2** Advancements in Energy Harvesting Transducers and the challenges they present for power management solutions, *Brian Shaffer - Linear Technology*
- IS2.1.3** High efficiency designs for energy conversion, energy storage and power management, *Henrik Zessin Fraunhofer - Fraunhofer*
- IS2.1.4** 1uW Embedded Computing: Using Off-the Shelf Components for Energy Harvesting Applications, *Mark Buccini - Texas Instruments*
- IS2.1.5** Ultra Low Power Microcontrollers and system design techniques, *Roman Budek - NXP*
- IS2.1.6** Commercialization of Energy Harvesting Wireless Technology, *Troy Davis - EnOcean*

With  
table  
demos  
at end  
of the  
session

Organized by the PSMA Energy Harvesting Committee
